## Patricia Villoslada appointed Managing Director of SUEZ Smart & Environmental Solutions

Patricia Villoslada, 46, has been appointed Managing Director of SUEZ Smart & Environmental Solutions, a leader in digital solutions for water and waste management, as of January 23rd, 2023. She will report directly to Sabrina Soussan, the Group CEO.

Patricia Villoslada began her career at Stellantis. She first held various positions in the Group's Research & Development Department and then in the Product Strategy Department. In 2016, Patricia Villoslada joined the Transdev Group to create and manage a subsidiary company dedicated to autonomous transport systems. There she developed a comprehensive range of transport services involving autonomous vehicles.

Patricia Villoslada succeeds Charles Chami, who will take up new functions within the Group as part of the new organization.

SUEZ Smart & Environmental Solutions designs and offers digital solutions to cities and industries to improve their environmental performance in the areas of water management and waste management, thanks to the use of big data. As the leading player in Europe for digital solutions in the environmental field, SUEZ Smart & Environmental Solutions has deployed 5.6 million IoT solutions worldwide, employs 3,000 employees, and relies on an internal network of 9 specialized laboratories.

*"Digitalisation and technology are key to helping our customers meet the challenges of smart management of water networks and optimizing waste collection. The Group has made this a key objective, setting itself the goal of doubling revenues from these activities in five years. Patricia Villoslada, with her extensive experience in technical and digital environments and her ability to unite people around ambitious projects, will be a key asset for our customers and our Group,"* commented Sabrina Soussan, Chairman and CEO of SUEZ.

**About SUEZ:**

*Faced with growing environmental challenges, for more than 160 years, SUEZ has been acting to deliver essential services that protect and improve the quality of life. SUEZ enables its customers to provide access to water and waste services, with resilient and innovative solutions. With its 44 000 employees present in 40 countries, the Group also enables its customers to create value over the entire lifecycle of their assets and services, and to drive their ecological transition, together with their end-users. In 2021, SUEZ produced drinking water for 66 million people worldwide and sanitation services for more than 33 million people. The Group generates 3.6 TWh of energy from waste and wastewater per year and avoided the emission of 3.8 million tons of CO2. In 2021, SUEZ generated revenues of 7.5 billion euros.
