## IN AUSTRALIA, SA WATER RENEWS ITS TRUST IN SUEZ TO PROVIDE PRODUCTION AND TREATMENT WATER AND WASTEWATER SERVICES TO THE ADELAIDE METROPOLITAN AREA

➤ 170 million euros over five years

South Australia Water (SA Water), the State government enterprise in Australia, renews its trust in the SUEZ Group with a new Alliance contract for the production and treatment water and wastewater services to metropolitan Adelaide, the fifth largest city in the country. The successful bid, worth 170 million euros over five years, will begin in July 2021 and will see SUEZ operate five drinking water and five wastewater treatment plants catering to the needs of around one million people.

SUEZ's approach will feature a local industry participation plan with initiatives to transform the contract into tangible economic and socioeconomic benefits for the community. As part of this plan, an ambitious business improvement program that aims to achieve sustainable savings will be supported by the implementation of smart solutions developed by the Group, including the AQUADVANCED® suite, SUEZ's innovative digital tool dedicated to securing drinking water and improving the overall performance of production systems and distribution networks, while contributing to reducing the ecological impact on the environment.

*"It's an honor for SUEZ to continue supplying the community of Adelaide with drinking water and wastewater services for the next five years. This comes after the successful collaboration between the Group and our 10-year partner SA Water, and we're proud to be continuing our relationship in 2021 and beyond. Through SUEZ's expertise and knowledge in the water and wastewater sector, we will be supporting SA Water in its commitment to deliver high-standards water and wastewater services. The contract's renewal with SA Water further demonstrates the Group's long-term partnership strategy with the country's authorities and falls in line with the Group's strategic plan "Shaping SUEZ 2030", strengthening our position internationally. In Australia, SUEZ is a leader in the water sector with key projects such as the Melbourne and Perth desalination plants and the Prospect water filtration plant in Sydney",* commented **Ana Giros, Senior Executive Vice President of SUEZ in charge of the APAC (Asia, Australia and India) and AMECA (Africa, Middle East, Central Asia) Regions and Industrial Key Accounts.**

### **About SUEZ:**

*Since the end of the 19<sup>th</sup> century, SUEZ has built expertise aimed at helping people to constantly improve their quality of life by protecting their health and supporting economic growth. With an active presence on five continents, SUEZ and its 90,000 employees strive to preserve our environment's natural capital: water, soil, and air. SUEZ provides innovative and resilient solutions in water management, waste recovery, site remediation and air treatment, optimizing municipalities' and industries' resource management through "smart" cities and improving their environmental and economic performance. The Group delivers sanitation services to 64 million people and produces 7.1 billion m<sup>3</sup> of drinking water. SUEZ is also a contributor to economic growth, with more than 200,000 jobs created directly and indirectly on an annual basis, and a provider of new resources, with 4.2 million tons of secondary raw materials produced. By 2030, the Group is targeting 100% sustainable solutions, with a positive impact on our environment, health and climate. SUEZ generated total revenue of €18.0 billion in 2019.*
