

COP25

2-13 december 2019

1,5°C

let's walk the talk, now.

Driven by our dedication to the environment, SUEZ is strengthening its climate commitments to join the IPCC's 1.5° trajectory:

- Reduce our greenhouse gas emissions by 45% (compared to 30% previously). SUEZ aims to be carbon neutral in 2050.
- Help our customers avoid 20 million tons of CO₂ emissions.
- Offer our customers 100% sustainable solutions that make a difference through their positive impact on health, quality of life, the environment and the climate.

Ambitious targets that contribute to the global effort to mitigate the causes of climate change and adapt to its consequences.

Together, let's shape a sustainable environment, now!
