Alain Larousse appointed SUEZ Chief Information Officer

Alain Larousse has been appointed Group Chief Information Officer effective January 9, 2023. He will mainly be responsible for managing IT infrastructure and cybersecurity as well as contributing to the implementation of the Group's digital strategy. Alain will report to Sabrina Soussan, SUEZ Chairman and CEO.

Alain began his career with Air Liquide, holding a range of positions in research and innovation, strategic management control and coordination of global subsidiaries. He was then appointed Group Chief Information Officer.

In 2014, he moved to Transdev as Group Chief Information Officer.

In 2020, Alain became Chief Information Officer for Loxam, a construction rental equipment services company.

Throughout his career, Alain Larousse has spearheaded multiple digital transformation projects prioritizing innovation as well as customer and employee experience. In this respect, his efforts have focused on the performance of information systems and the prevention of cybersecurity risks.

Alain Larousse is a graduate of CentraleSupélec.

Sabrina Soussan, Chairman and CEO of SUEZ said: *"The appointment of Alain Larousse reflects the Group's ambition to invest in efficient and innovative information systems. Data, Artificial Intelligence and cybersecurity risk prevention play an increasingly important role in water and waste management. In his role as Chief Information Officer, Alain Larousse will actively ensure that our operations are efficient, reliable and secure. Alain will also help to accelerate the digitalization of our solutions and services, in line with the Group's strategy."*

About SUEZ:

Faced with growing environmental challenges, for more than 160 years, SUEZ has been acting to deliver essential services that protect and improve the quality of life. SUEZ enables its customers to provide access to water and waste services, with resilient and innovative solutions. With its 35 000 employees present in 40 countries, the Group also enables its customers to create value over the entire lifecycle of their assets and services, and to drive their ecological transition, together with their end-users. In 2021, SUEZ produced drinking water for 66 million people worldwide and sanitation services for more than 33 million people. The Group generates 3.6 TWh of energy from waste and wastewater per year and avoided the emission of 3.8 million tons of CO2. In 2021, SUEZ generated revenues of 7.5 billion euros.
